Welcome to **FALA ROAD CONTRACTING**

Introduction

Fala Road Contracting L.L.C. (FALA) is a UAE-based construction company established in 2007. At FALA, we seek to contribute to the physical and ideal foundation of our surroundings—establishing our legacy, leaving our mark, and making great progress in the construction sector. We are an accomplished construction company with more than a decade of experience, developing significant infrastructure across the UAE. We are grounded in safety and inspired by the future. Our ideals are set in stone. **“At FALA, we don’t just get the job done—we get the job done right”**

FALA has flourished to become one of the UAE’s primary specialists in road and infrastructure. We are qualified, certified, and specialized. We work with the most valuable clients, completing major projects in excavations, infrastructure, internal roads, highways, freeways, car parks, and the laying of concrete and asphalt. Behind our commitment to quality is a dedicated team that provides superior technical backup and highly trained manpower. FALA’s sizable fleet of construction equipment includes dozers, excavators, shovels, backhoe loaders, dump trucks, graders, steel and pneumatic-tired rollers, asphalt pavers, milling machine and other machinery.

FALA has recently been awarded several new road and infrastructure projects, and we are currently engaged in the tendering process for several others. We have a firm book order of approximately AED 300 million, a workforce of over 1000+ employees, and strategic investments in land, buildings, plants, and equipment. We are positioned to become one of the major road and infrastructure construction companies in the UAE, the region, and beyond. Our repertoire and legacy grow with every project we complete.

Mr. Ihsan Kerbaj, Fala Group Chairman

We bring to the table our technical, physical, and experiential capabilities. We stand behind our qualifications, meeting integrated management system requirements ISO 9001:2015, 14001:2015 and OHSAS 18001:2007 certified by Quality Registrar Systems (QRS) which is accredited by Dubai Accreditation Department (DAC).

Our company’s success is driven by an unyielding commitment to the highest quality work, delivering to our clients the most advanced facilities. FALA is renowned for its distinctive ability to implement innovative project management techniques. We serve as a reliable provider of knowledge-driven solutions for complex construction projects. FALA is dedicated to the pursuit of construction knowledge, staying up to date with industry trends and always looking towards the future.

OUR VISION AND MISSION

Our vision is to contribute to the development of a sustainable future for our communities. We envision becoming the regional contractor of choice for the design, construction, and delivery of significant road and infrastructure projects across the Middle East and Africa.

Our mission is to form beneficial, reciprocal, deep-rooted, and ever-growing relationships with our clients and communities by delivering the highest quality projects within reasonable time and budget. We strive to be recognized for consistently providing top-level solutions, safety, expertise, and satisfaction.

OUR CORE VALUES

1

INTEGRITY

We treat clients and partners fairly, conduct business with the utmost professionalism, and honor our commitments. Our integrity is built upon a respect for people and environment.

2

INNOVATION

We value innovative thinking and encourage the application of creative ideas to address new and old construction industry challenges.

3

PRIDE

We take tremendous pride in our people, our organization, our quality of work, and our accomplishments. We celebrate our victories and work hand-in-hand to resolve our challenges.

4

PEOPLE

We recognize that our employees are our greatest strength. To that end we maintain a rewarding work environment, promote a culture of teamwork, and provide growth opportunities and professional development for all of our team members.

Jiya
IT Manager

Ihsan Kerbaj Chairman

The UAE's journey began with dedicated efforts and collaborative perseverance. The UAE embodies the spirit of teamwork and quality. I began my career as a staff member and achieved great success and admiration from my peers, working on large projects with little funding.

FALA was born in 1997 out of the local need for a building materials-trader with conviction, credibility, quality, and speedy delivery. Since our establishment, we have achieved much success. We have effectively cemented our presence in the market by providing superior service to construction companies, and through investment in our staff. Our team is our backbone. My employees are like family members.

I thank God for granting me my successes and achievements. I am thankful for every project of which I have been a part, and I guarantee everyone that we will maintain these high levels of quality as we strive to grow bigger and expand further.

WHAT

WE

DO

فالة لمقاولات الطرق ذ.م.م
Fala Road Contracting L.L.C.

1

Roadworks

2

Dams and Canal works

3

Earthworks

4

Utilities

5

Street lighting

6

Bridges & Underpasses

7

**Rock Protection /
Stabilization**

8

Equipment Rentals

What We Do

1 Roadworks

We provide the equipment and advanced technology for construction of internal and service roads, highways, and car parks.

Road Base Laying with paver
Screening & Material Crushing

Road Base Mixing
Sub Base Laying

Roadworks

Asphalt Compaction
New Jersey Barrier Cast in Situ
Rip Rap Protection Work

Formation Preparation
Installation of guard rail post
Road Making - Spraying

What We Do

2 Dams

We provide top-notch service, equipment, and innovation in advanced engineering techniques for dam construction.

Layered Gabian Protection with Concrete capping
Gabion Layered Protection
Gabian Protection

Dams & Canal Works

What We Do

3 Earthworks

We provide soil and rock processing and excavation for roads, dams, and other minor and major earth structures.

Imported Filling
Earthwork Movement Activities

Earthworks

Rock Filling
Mountain Rock Excavation
Mountain Slope Trimming

Dune Sand Filling
Mountain Slope Protection
Dune Sand Excavation

What We Do

4 Utilities

We are qualified to provide underground electricity, gas, water, sewage, and communications utilities prior to construction.

Utilities

What We Do

5 Street lighting

We equip and produce sustainable, energy-efficient installation, repairs, and upgrades for public street lighting projects.

What We Do

5 Street lighting

We equip and produce sustainable, energy-efficient installation, repairs, and upgrades for public street lighting projects.

Street lighting

What We Do

6 Bridges & Underpasses

We execute bridge and underpass projects, from formwork and steel-fixing to pre-stressing and launching.

Bridge works
Pipe Culvert Works

Box Culvert Works
Underpass Works

Bridges & Underpasses

What We Do

7 Rock Protection / Stabilization

What We Do

8 Equipment Rental

We offer our advanced and updated equipment for rental for every type of construction project.

Equipment Rental

Excavator

Bulldozer

Road Roller

Wheel Loader

Dumper Truck

Asphalt Paver Machine

Road Milling Machine

Road Construction Machinery

FALA ASPHALT PLANT

Fala Road Contracting L.L.C. (FALA), through RAK Investment Park, has established our own asphalt plant capable of producing high quality, high efficiency, low energy consuming, and environmentally friendly asphalt mixes.

FALA's plant has grown to become one of the leading asphalt plants in the eastern Emirates. Our plant has supplied asphalt to notable projects throughout the eastern emirates, including towards construction on major highways such as Emirates Road (E611) and Sheikh Mohammed Bin Zayed Road (E311), as well as Dubai Bypass Road (Phase I & II, R1/762), Beirut Road, and Airport Road Improvement (Phase I & II).

The plant has a capacity of two hundred forty tons per hour (240 t/h) and can supply all type of mix designs at an optimum speed and automatic system controlled mix designs. We believe that our customers praise the quality of our product. Our quality speaks for itself.

EMPHASIS ON QUALITY

Our Fala Road Contracting L.L.C. (FALA) asphalt products comply with international standards (AASHTO, ASTM, and DIN) and the UAE's Ministry of Public Works. Our emphasis on quality is clear in everything we do, from our workmanship to our reliable delivery times. FALA's qualified QA/QC and material engineers, as well as our highly skilled lab technicians and lab assistants work tirelessly to maintain our commitment to providing quality products, in accordance with the Quality Management System (ISO 9001:2008).

The quality of our services begins with the sourcing of raw materials, and continues through the design mixing, manufacturing, transporting, placing, and compacting, and all the way to the project's final stages. Staff at every level is expected to consider the finest details in creating environmentally friendly solutions. Our philosophy is based in upholding the highest quality service for all types of asphalt supplies, in order to meet the requisite design mix through the various stages of a project.

DESIGNING FOR QUALITY

At Fala Road Contracting L.L.C. (FALA), the quality of our services and products is a major factor in our success. We understand that clients and customers begin to consider a provider's service features well before their decisions are made. FALA's role in the process is to facilitate a deeper understanding of the design process, and to relay the needs of clients, consultants, contractors, and subcontractors to engineers, technicians, and staff at every level. We believe in transparency and promote an active acquisition of knowledge .

QUALITY MANAGEMENT

Fala Road Contracting L.L.C. (FALA) is committed to providing total customer satisfaction through excellent management and continuous improvement of our products and services. We aim to deliver our services efficiently and effectively, exceeding industry standards.

FALA ensures that all employees are properly trained, equipped, and motivated to serve our customers in accordance with the highest level of professionalism. Our team's combined years of hands-on industry experience makes us the top choice for high quality services. We are committed to quality, and the quality of our work speaks for itself.

QUALITY STATEMENT

The Fala Road Contracting L.L.C. (FALA) Quality Statement serves to comply with the Terms and Conditions of engineer and client contracts, and with the applicable regulatory and legal requirements of the industry, environment, and safety. Contracts require us to complete the planned work according to agreed-upon specifications, within an agreed-upon timeframe, and at the agreed-upon price. These are fundamental requirements of the construction industry and FALA will continue to meet these requirements.

FALA recognizes that key material suppliers and specialized subcontractors contribute to our success; we are committed to maintaining close and beneficial partnerships with these parties. While projects are underway, we are committed to reducing any issues to a realistic extent, within the limits of each contract, in order to preserve these relationships.

FALA remains committed to our continual progress by establishing company-wide quality improvement objectives. The objectives are communicated down through the organization, so that each level understands its role in attaining these objectives.

Once branch- and department-level objectives are met, they are reviewed according to this Quality Statement. The results are then used to prepare new objectives. This Statement is regularly reviewed by upper-management for accuracy and relevance.

FALA recognizes that maintaining a sufficient margin to invest is dependent on continually improving our techniques and the competencies of our people, so that client wishes, shareholder profits, and employee expectations are fully realized. By doing so, prospective clients will have no qualms negotiating further business with our company.

QUALITY POLICY

Fala Road Contracting L.L.C. (FALA) senior management is fully committed to operating and maintaining a Quality Management System in its design offices and at project construction sites; this system is based on the ISO 9001:2000.

The above mentioned system is thereby initiated in line with the company's Quality Policy.

It is within FALA's policy to design, procure, construct, install, and commission all projects as per their respective requirements, to the highest standards of safety, quality, and reliability, and in accordance with engineering practices, statutory regulations, and codes of practice to meet client needs.

This Quality Policy, respective Project Management Plans (PMP), and any relative occupational procedures must contain details of FALA's organizational management and a summary of key responsibilities. In addition, it is within our policy to promote continuous improvement and maintain a culture based in customer satisfaction. It is also within our policy to identify and provide suitable, qualified, and experienced human resources as well as appropriate equipment to efficiently and effectively manage the necessary work for each project.

All FALA staff is responsible for ensuring that their role in our Quality Management System is managed in an accurate and satisfactory manner, thereby consistently meeting the agreed-upon objectives. This Quality Policy and the details of our Quality Management System are widely communicated throughout the company. The QA manager ensures they are understood and checks regularly for their implementation.

FALA's quality objectives are defined in detail in our Quality Management System and are subject to regular review at periodic internal QA audits. For assessment of the Quality Management System, full access is granted to the client and his engineering representative(s). For implementation and maintenance of the Quality Management System, full authority is assigned to the respective QA manager to audit, identify problems, and initiate necessary actions to resolve the problems so that they are wholly addressed.

FALA LABORATORY

Fala Road Contracting L.L.C. (FALA) has established a fully equipped laboratory to carry out the procedural tests that are required to meet various asphalt design mixes and specification requirements. Here is a sampling of the types of asphalt for which we test:

- 1 Hot Mix Asphalt
- 2 Warm Mix Asphalt
- 3 Cold Mix Asphalt
- 4 Mastic Asphalt
- 5 Cut-back Asphalt
- 6 Natural Asphalt

FALA LABOUR CAMP

Residential accommodations owned by Fala Road Contracting L.L.C. (FALA) have the capacity to house over 500 people. Our accommodations maintain the highest standards possible ensuring resident needs are met, taking into account everything from comfort and diverse cultural backgrounds to dining and leisure preferences.

At FALA, our employees are at the heart of our work. We strive to make their employment and their lives wholesome, healthy, and engaging.

We understand the importance of maintaining a healthy work-life balance. To this end, facilities have been set up to accommodate various physical activities.

These spaces include a football pitch, volleyball court, and cricket field. Cable television is provided at every dining hall, providing news and entertainment in different languages and for different nationalities.

GROWTH CHART

Since the establishment of Fala Road Contracting in 2007, the firm has registered constant growth in respect of number of projects executed, as shown in the figure above, growing project values, varied nature of projects like Roads, Bridges, Interchanges, Utilities, Dams, Drainage, Street Lighting

works, etc.; increased and wide exposure to all aspects of technical and operational factors and complexities, all of which have empowered the company further to undertake and successfully complete a number of projects involving large contract values.

Health, Safety & Environment

Fala Road Contracting L.L.C (FALA) expresses its corporate responsibility and commitment to promoting ourselves as healthy, safe, and environmentally friendly. We care about the world in which we live, and work tirelessly to extend our care to our people and our sites. Our company's achievements are made possible by preserving and developing human and physical resources, and by reducing costs and liabilities. We have adopted a proactive Health, Safety, and Environment Plan by identifying work place hazards and reducing inherent risks to manageable levels, thereby avoiding accidents, liabilities, and consequential costs resulting from acciden

Fala Road Contracting L.L.C.

FALA believes that personal injuries, property loss, and environmental incidents are preventable only if Health, Safety, and Environment are an integral part of all business activities

FALA demonstrates the significance of a healthy, safe, environmentally friendly mission.

FALA guarantees compliance with company policy, applicable laws, local regulations, international standards, and industrial codes. This responsibility is a condition of the employment contracts for all employees and subcontractors.

FALA implements relevant environmental monitoring programs.

Health, Safety & Environment

FALA ensures the disbursement of financial and physical resources to educate, train, and motivate employees to meet this commitment.

FALA commits to a policy of risk prevention, waste reduction, and elimination of incidentals that may result in loss or damage.

FALA promotes continuous environmental awareness among our employees and subcontractors.

FALA seeks to provide fundamental safety training to ensure employee competence and secure working environments.

FALA ensures the disbursement of financial and physical resources to educate, train, and motivate employees to meet this commitment.

FALA considers Health, Safety, and Environment in all of our decision-making.

FALA conveys our Health, Safety, and Environment message to all FALA staff, and to subcontractor representatives who are responsible for health and safety.

FALA outlines the specific objectives of our safety policy:

- A** To establish and maintain safe, healthy, and productive working environments
- B** To place and reinforce paramount emphasis on the prevention of accidents
- C** To protect property, equipment, and most importantly, life
